

Sometimes toilet paper is just not the answer.

This portable 500 ml bidet offers a gentle, water-based way to clean and freshen up when a shower is not practical or comfortable. It is designed to support comfort, dignity, and ease during times when skin is sensitive, sore, healing, or when mobility is limited.

Whether you are recovering after birth or surgery, caring for a baby, travelling, or simply needing a kinder option for intimate hygiene, this bidet gives you control and confidence wherever you are.

Simple to use, easy to carry, and discreet enough to keep by the bed or in your bag.

Folds down for travel and comes with two nozzles and a storage bag, making it a quiet essential many people wish they had sooner.

Great for:

- Cleaning during baby or toddler nappy changes
- Pregnancy, postpartum care, and post-birth recovery
- Recovery after vaginal or rectal surgery
- People spending extended periods in bed or using bed pans
- Gentle intimate cleaning when showering is not possible
- Soothing sore, sensitive, raw, or irritated skin
- Managing discomfort from itching, dryness, or irritation
- Travel, hospital stays, or overnight bags

Features:

- Gentle water-based cleaning
- Easy squeeze bottle with controlled flow
- Angled nozzle for targeted rinsing
- 500 ml capacity for thorough use
- Folds down for compact storage
- Includes two interchangeable nozzles
- Comes with a discreet storage bag
- Reusable and easy to clean

Image Description: A blue portable bidet bottle with a soft squeeze body and angled nozzle, shown from multiple angles. The images include close-ups of the nozzle tip, the foldable bottle design, interchangeable nozzles, and the included storage bag, demonstrating how the bidet is held and used for gentle water-based cleaning.
